

Hello Everyone,

We're not accepting any more Papers at the moment - due to an overwhelming response from around Australia and Overseas. But we'd love you to come and hear the wonderful Presenters we have on offer.

Have a good look at the Poster (attached) and when you find the offerings irresistible, rest assured there's still plenty of time to join us as good listener - non-presenting Delegates are enormously important to a healthy Conference event. There are also plenty of opportunities for Networking and participation in discussion. And when you throw in beautiful Hobart and Tassy in the early Summer we think you'll find it a winning combination. Come and Join Us.

Kind Regards,

ian paulin

## Australasian Society for Continental Philosophy

The Australasian Society for Continental Philosophy was established in 1995 as the revamped Australasian Society for Phenomenology and Social Philosophy, with the aim of becoming the region's premier reference point for people working with Continental Philosophy. Currently a conference is held in the name of the organisation each year.
